REPLICA WEAPON TRAINING SYSTEMS

PATENT #: 8690575, 9175922, 9568268, 10001338

ACME's ultra-realistic replica weapons look, feel and function just like the actual machine guns. And they're coupled to a patented, all-electric, full-force, full-rate-of-fire recoil system.

A full set of sensors monitor the weapon status and gunner's actions. Replica high-volume ammo cans and reloading logic train gunners to feed, load, and fire quickly and correctly.

Insertable malfunctions prepare gunners to deal with worst-case weapon issues.
